

CONTRACTOR Pre-Qualification Questionnaire

Marathon Gold NL is dedicated to working closely with the communities and people of central Newfoundland to develop the Valentine Gold Project in an environmentally and socially responsible manner. Marathon Gold is committed to the sustainable and socially acceptable development of the Valentine Project, based upon our core values of Respect, Accountability, Transparency, Inclusion and Prosperity. Through our commitment to the highest standards of performance excellence, we will constantly strive to avoid or minimize adverse effects upon the environment and to maximize benefits for the people and communities where we operate as well as for our shareholders and employees. Our goal is to operate the Valentine Gold Project in a way that will build positive and meaningful relationships with Indigenous groups and stakeholders and contribute to regional well-being and prosperity.

When submitting your Proposal to Marathon Gold, it's important to understand our company's social values and build your responses by those core principles especially related to local content and inclusion. Our Evaluation Matrix will consider commitments to employment and subcontracting opportunities for residents and businesses in the local communities as well as members of under-represented groups very important criteria.
